

BWT-U Universal water thermostat

Thermostat BWT-U provides stable temperature maintaining in the range from +30° to +100°C. The digital display switches between actual and set temperature readings. Thermostat can be equipped with a flowing water cooler for extending the temperature range.

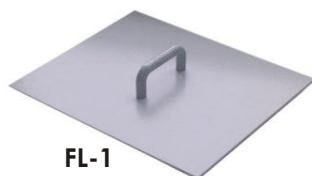

For use in medical, ecological monitoring and food control laboratories as well as in scientific research and microbiology laboratories.

SPECIFICATION

- Constant mixing for even temperature distribution in the working volume and increased heat transfer
- Temperature range +25... +100°C
The unit provides stable thermoregulation when the set temperature is at least 5°C higher than the ambient temperature
- Display LED
- Stainless steel bath capacity 8l (20l on request)
- Optional lifting platform with adjustable height **LP-1** (8l bath) **LP-1/20** (20l bath)
- Optional flat lid **FL-1** (8l bath) **FL-1/20** (20l bath)
- Overall dimensions 280x390x270 mm 345x550x290 mm
- Work volume 240x180x140 mm 300x320x140 mm
- Weight, not more 8 kg 11 kg
- Power supply 220/240 V, 50/60 Hz; 1 kW max.
